Edmonton Zone Palliative Care Program

Palliative Pain & Symptom Workshop

This is a one day workshop that focuses on a palliative approach and management for this population. The learning format is lecture based, with inclusion of case studies and encourages an interactive environment for active learning. Topics presented include: pain, dyspnea, GI complications, depression/anxiety/wellbeing, communication, delirium/palliative sedation and end of life care. The topics are presented with a focus on nursing environments in the community and acute care practice.
